PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student at Parul University with strong interest in Software Development, AI/ML, and Full Stack Development. Skilled in Python, web technologies, and building practical projects including AI-powered applications and inventory management systems. Passionate about problem-solving, learning modern technologies, and developing scalable software solutions.

EDUCATION

Parul University

Bachelor's Degree in Computer Science Engineering

Expected Graduation: 2026

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: Streamlit, Flask, Pandas, NumPy, Scikit-learn

Databases: MySQL, SQLite

Tools & Platforms: Git, GitHub, Docker, Redis, Celery, VS Code, Vercel

Concepts: Machine Learning, REST APIs, Web Development, DSA, Software Engineering

PROJECTS

Intelligent Barcode-Based Inventory System

Python, Barcode Scanner Integration, SQLite/MySQL, Streamlit

- Developed an inventory management system using barcode-based product tracking.
- Automated stock entry and monitoring to improve inventory accuracy and efficiency.
- Implemented real-time inventory updates and product management features.

AI Research Paper Summarizer Agent

Python, Celery, Redis, Telegram Bot API, SendGrid, Docker, Vercel

- Built an AI-powered research paper summarization system for automated content analysis.
- Integrated Telegram Bot API for instant summary delivery and user interaction.
- Used Celery and Redis for scalable asynchronous task processing.

Diabetes Prediction Web Application

Python, Streamlit, Scikit-learn, Pandas

- Developed a machine learning-based web application for diabetes prediction.

- Implemented trained ML models with an interactive Streamlit interface.
- Processed healthcare datasets for prediction accuracy.

CERTIFICATIONS

- Python Programming Certification
- Machine Learning Fundamentals
- Web Development Basics

LANGUAGES

English, Telugu, Hindi
